Education

KLE Technological University Karnataka, India
Bachelor of Technology in Computer Science and Engineering *Aug. 2024 – May 2028*

- **Cumulative CGPA:** 6.5 / 10.0 | **Relevant Coursework:** Data Structures & Algorithms, OOP (Java/C++), DBMS (SQL), Operating Systems, Computer Networks.

Technical Skills

Languages: Java, Python, C, C++, TypeScript, JavaScript, SQL
AI & Machine Learning: PyTorch, Scikit-Learn, Pandas, NumPy, NLP, Multi-Agent Systems
Full-Stack & Web: React.js, Next.js 15, Node.js, Express.js, Tailwind CSS, REST APIs
Databases & ORM: PostgreSQL, MySQL, Prisma ORM, IndexedDB, SQLite
Developer Tools & CLIs: Git, GitHub, Linux/Bash, VS Code, Jupyter Notebook, Agentic Coding & CLI Workflows

Featured Projects

TCS Retail Sentiment Chatbot | *Python, NLP, Multi-Agent Architecture, REST APIs* GitHub Link

- Engineered a multi-agent customer sentiment analysis chatbot with privacy-preserving PII masking to sanitize sensitive customer data prior to inference.
- Implemented two-tier sentiment classification pipeline and empathetic response generation with sentiment-adaptive avatar feedback.
- **Awarded 1st Place / Winner at the TCS Technology Day Hackathon** for innovative customer experience and privacy-first conversational architecture.

GigaFlow – Milestone Escrow Marketplace | *Next.js 15, TypeScript, Prisma, PostgreSQL* GitHub Link

- Architected a milestone-based freelance escrow platform with Finite State Machine (FSM) lifecycles to eliminate client payment default and deliverable fraud.
- Engineered Web & Security core using Next.js 15 App Router with least-privilege Role-Based Access Control (RBAC) across Client, Freelancer, and Arbiter portals.
- Integrated double-entry ACID ledger balance conservation and SHA-256 deliverable checksumming for cryptographic evidence arbitration.

ExpenseIQ – Personal Finance Tracker | *JavaScript, React, Chart.js, IndexedDB, Tailwind* GitHub Link

- Developed an interactive personal budgeting and expense tracking dashboard featuring real-time graphical analytics and trend reports.
- Implemented client-side data persistence via IndexedDB, enabling seamless offline synchronization and zero-latency transaction updates.
- **Awarded Best Project in College** for Web Technology (WebTech) course for exceptional UI design and offline architecture.

KLE Connect – Academic Resource Platform | *TypeScript, React, Node.js, Express, MySQL* GitHub Link

- Architected a centralized campus collaboration platform for students and faculty to syndicate syllabi, notes, and announcements.
- Implemented relational MySQL schemas with composite indexing to deliver sub-150ms hierarchical search across department resources.
- Engineered secure JWT-authenticated API endpoints with peer-voting mechanisms and responsive mobile-first UI components.

Achievements & Certifications

Hackathon Winner: 1st Place Winner at TCS Technology Day Hackathon for Multi-Agent Retail Sentiment AI.
College Best Project Award: Won 1st Prize / Best Project Award in College for ExpenseIQ in Web Technology.
Google & Kaggle Certified: AI Agents Vibe Coding (2026) & AI Agents Intensive (2025) – Capstone Builder.
IBM Certified Credential: Getting Started with AI – IBM SkillsBuild Credly Verified (Sep. 2026).
Global Datathon Competitor: Active competitor in Stanford / WiDS Global Datathon 2026 (Predictive Climate Survival).
